The Global ODCE (open-end diversified core equity) fund index is the latest global index launched by ANREV, INREV and NCREIF to enhance transparency of the non-listed real estate investment industry.

As a subset of the Global Real Estate Fund Index (GREFI), the Global ODCE Index includes only non-listed real estate funds of ANREV, INREV and NCREIF ODCE indices.

The Global ODCE Index measures the net asset value performance of non-listed real estate open end diversified core funds on a quarterly basis. Performance is measured net of fees and other costs. Due to the very different sizes of the three core indices, the Global ODCE fund index has been built on an equal weight basis.

The Index features 49 funds and represents a total gross asset value (GAV) of USD 353.1 billion as of Q2 2026.
